

In light of your consideration of LPFM stations taking priority over current FM translator service, I want to let you know how negatively this would affect my family & community through the loss of the K-Love network in OKC. This station provides positive and encouraging, commercial free programming that is appropriate for the whole family. This station is the only one in our market that fits that description and it serves a much needed purpose. We make monthly financial contributions to this station because we believe it is one of the most valuable ways we can use the money to not only provide for our own family but to our community and the K-Love audience nationwide. The influence of K-Love on the young people of our community is very positive and like no other! Thank you for your consideration.
